CIWM (WAMITAB) Level 3 Award in Health and Safety Supervision for the Resource and Waste Management Sector

NEW

Did you know? The resource and waste management sector has an accident, illness and fatal injury rate significantly higher than the all-industry rate?

CIWM's **NEW** Level 3 Award in Health & Safety is specifically designed for those working in waste and resource management to help improve Health & Safety performance in the workplace.

This first-of-its-kind qualification:

- Is designed specifically for supervisors and managers working in waste and resource management
- Focuses on health and safety leadership, behavioural safety, effective risk assessment and current legislation and regulations
- Provides a framework for effective training and information that can help improve site, and non-site health and safety performance.

Learner benefits:

- Gain the skills, knowledge and understanding to manage health and safety in the resource and waste management sector.
- Achieve a regulated qualification recognising these skills and a CIWM (WAMITAB) qualification certificate.
- Access a two-year FREE CIWM Affiliate learner membership (including access to the CIWM Knowledge Centre and award-winning *Circular* magazine).
